Under the supreme and choicest blessings of the Padma Bhushan Sh. G.P Chopra Ji, DAV Centenary College, Faridabad boasts of a string of impressive achievements it has to its credit.

Into the third decade of its existence, this premier institution has become a centre of earnest academic pursuit, meaningful and stimulating co curricular and intellectual activities like workshops, campaigns on important social issues, seminars, etc.

We aim at an exploration of the talent of our students and honing their skills in making them self sufficient. Success follows eventually.

“Our vision is not for one year to plant wheat, our vision is not for ten years to plant trees, but our vision is for a Lifetime to plant Relationships”.

ABOUT THE CONFERENCE

Language and IT industry complement each other. As both are evolving at a fast pace, they arouse curiosity among the IT professionals and other people in general. English and IT Departments of DAVCC, Fbd have merged to explore the latest trends of language and computer technology in specialised fields and use it as a powerful tool in improving common man's life.

Our aim in holding this conclave is to provide a National platform to the research scholars, academicians and computer fraternity through out India so that they may explore the possibility to sensitise the students to become well rounded professionals through International Languages and Computer Courses.

RELEVANT TOPICS

- ✦ International Languages and Computer Courses can sensitize the students to become well-rounded professionals.
- ✦ Language Ethics & Computer Ethics as a specialized field of applied ethics in today's education.
